15. Multidisciplinary / interdisciplinary

1. Multidisciplinary / interdisciplinary: Delineate the vision/plan of institution to transform itself into a holistic multidisciplinary institution. "Redesign and restructure objective skill oriented, market -friendly courses which are the need of the coming years, in this age of globalization. In order to meet the challenges of the global market, fruitful co-operation & collaboration with the foreign universities in near future. To strive for autonomy and deemed university status." The above vision statement of the institution was translated into reality. The college was established in the academic year 1989-90 as a commerce College. In the span of 33 years the college has expanded as a multidisciplinary institution. At present the College is offering 4 undergraduate programs and, 3 Postgraduate programs in Commerce, 3 UG and 2 PG Programs in Science and 1 each UG programs is Arts and Management. This speaks for the commitment of the Institution towards multidisciplinary approach. Delineate the Institutional approach towards the integration of humanities and science with STEM and provide the detail of programs with combinations. The institution provides 9 UG and 3 PG programs. In each program courses were offered by keeping in mind of integration of humanities and science with STEM. In BCom Programs Economics and Business law are the humanities are the part of curriculum . Similarly Mathematics is part of our curriculum in almost all programs. Most of these programs stress more on application, hence ICT is part of their curriculum. Does the institution offer flexible and innovative curricula that includes credit-based courses and projects in the areas of community engagement and service, environmental education, and value-based towards the attainment of a holistic and multidisciplinary education. Explain The institution offers flexible and innovative curricula. The in the present curriculum courses like

Foundation course, Environmental studies inculcate the idea of value education among the students, which will help in attainment of a holistic and multidisciplinary education. The activities conducted by the various forums in general and committees like NSS and DLLE in particular also contribute towards value education. What is the institutional plan for offering a multidisciplinary flexible curriculum that enables multiple entry and exits at the end of 1st, 2nd and 3rd years of undergraduate education while maintaining the rigor of learning? Explain with examples. The institution, in principle decided to implement NEP 2020 from the next academic year for UG and PG programs. One of the features of NEP 2020 is multi entry and exit education system. Since College is offering NEP curriculum from the academic year 2023-24 our students will have the opportunity to exit with Certificate after the 1st year, Diploma after the 2nd year, Degree after 3rd year and Honours after the 4th year. What are the institutional plans to engage in more multidisciplinary research endeavours to find solutions to society's most pressing issues and challenges? From the long term perspective the College has full time Ph.D center in Commerce and management. The College has also applied for Ph.D. Center in Accountancy and Business Economics. The Research Guides from the institution may encourage research scholars to conduct research to find solutions for complex social issues. At present we have more than 25% of the faculties with research degrees of M.Phil and Ph.D in almost all the disciplines. The College Curriculum also highlights the importance of research , hence for 3rd year graduate students of SFC has to complete one project in the final year with 4 credits. In Science programs more importance was given to practical aspects stressing more on practical applications. The College organizes National, International and local research seminar to encourage the research. The Institution also reimburses the research expenses of the research scholars and thereby motivate the faculty members to go for quality research. The college encourages students to participate in research completions. The NSS and Different subject forums conducts field research and make the presentations. The College also organizes training programs, expert lectures and workshops to update current issues and technology. Describe any good practice/s of the institution to promote Multidisciplinary / interdisciplinary approach in view of NEP 2020. The National Education Policy (NEP) 2020 in India emphasizes the importance of multidisciplinary and interdisciplinary approach in education. Institutions are encouraged to adopt practices that promote holistic learning and the integration of knowledge from various disciplines. Being principally agreed to adopt and promote a multidisciplinary/interdisciplinary approach in line with NEP 2020, the institution is planning to implement the following: Flexible

Curriculum Design Interdepartmental Collaboration Integrated Courses and Programs Project-Based Learning Interdisciplinary Research Centers Cross-Functional Faculty Development Technology Integration Student Exchanges and Internships Promotion of Critical Thinking Assessment and Evaluation

CURRICULAR ASPECTS

1.1 - Curriculum Design and Development

1.1.1 - Curricula developed and implemented have relevance to the local, national, regional and global developmental needs which are reflected in Programme Outcomes (POs), Programme Specific Outcomes (PSOs) and Course Outcomes (COs) of the various Programmes offered by the Institution.

The institution While designing the curricula, a crucial consideration is given in aligning the content with diverse developmental needs at the local, national, regional, and global levels. This alignment is manifested through the articulation of program outcomes, program specific outcomes and course outcomes.

Skill enhancement courses enhances personal, social and

professional skills. Environment related courses enable learners to adopt sustainable alternatives, encourage conservation of bio diversity and a balanced ecosystem. Value education provides scope for appreciation of self-values, cultural diversity, nation and peace building.

The careful integration of these considerations into program and course outcomes not only enhances the educational experience but also ensures that graduates are well-positioned to make meaningful contributions in a dynamically evolving world. This holistic approach to curriculum development reflects a commitment to producing well-rounded individuals who can navigate and positively impact a spectrum of developmental needs.

1.3 - Curriculum Enrichment

1.3.1 - Institution integrates cross-cutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability, and Human Values into the curriculum

The institution is committed to fostering a holistic and socially

responsible learning environment by integrating cross-cutting issues relevant to professional ethics, gender, human values, and environmental sustainability into its curriculum.

Professional ethics form a foundational element, emphasizing integrity, responsibility, and accountability in all aspects of learning. The curriculum incorporates case studies and practical scenarios that challenge students to navigate complex ethical dilemmas, preparing them for the ethical challenges they may encounter in their respective fields.

Gender sensitivity is embedded throughout the curriculum to promote inclusivity and equal opportunities. By fostering an awareness of diverse perspectives and experiences, the institution aims to empower students to contribute to workplaces that embrace diversity and equity.

Human values are woven into the fabric of education, emphasizing empathy, compassion, and social responsibility. Students are encouraged to reflect on their roles as responsible professionals and global citizens, contributing positively to society.

Environmental sustainability is a key focus, with coursework designed to explore the impact of professional practices on the environment. From eco-friendly practices to sustainable business models, students are equipped with the knowledge and skills to address environmental challenges within their professions.

This integrative approach not only prepares students with the technical skills required for their careers but also nurtures a sense of responsibility, ethical decision-making, and a commitment to social and environmental well-being

2.2 - Catering to Student Diversity

2.2.1 - The institution assesses students' learning levels and organises special programmes for both slow and advanced learners.

The institution prioritizes personalized education by conducting regular assessments to gauge students' learning levels, ensuring a tailored approach to academic development.

For slow learners, specialized programs are organized to provide additional support and resources. It includes targeted tutoring, remedial Lectures, or individualized learning plans through tutorial sessions, course content materials aimed at addressing specific challenges and fostering a supportive learning environment.

Conversely, for advanced learners, the institution designs special programs to cater to their unique needs. The toppers of each class are the members of the student' council thereby were given opportunity to organise various events like Model Vismayam and Model Awards. It encourages their management skills. Advanced learners were given additional library book facility. Enrichment activities, accelerated coursework, and opportunities for independent research are incorporated into the curriculum to challenge and stimulate these students, fostering a culture of academic excellence.

By addressing the varying learning levels within the student community, the institution not only promotes inclusivity but also maximizes the potential of each student. This commitment to differentiated learning ensures that both slow and advanced learners receive the necessary attention and resources, creating an environment where every student can thrive academically.

2.3 - Teaching- Learning Process

2.3.1 - Student-centric methods such as experiential learning, participative learning and problem-solving methodologies are used for enhancing learning experiences:

The institution places a strong emphasis on student-centric methods to enhance the learning experience, recognizing the value of active engagement and practical application of knowledge. Through hands-on experiences, field trips, and simulations, students gain a deeper understanding of their subjects and develop practical skills that extend beyond the classroom. The internship for commerce students by ICAI - TEL (Train, Earn and Learn) program, tally, laboratory sessions, soft skills grooming sessions by TNS foundation are some of the initiatives.

Participative learning is actively encouraged, fostering an interactive environment where students collaborate, share ideas, and engage in discussions.

Student newsletter Model Arthvaani by Commerce Association, E news letter by Economics Forum, handwritten newsletter Prayog - An experiment by Communication Forum, Techknowledge Student Magazine by Bits N Bytes, Film Poster making by Mass Media forum are some of the initiatives.

Problem-solving methods are integrated into the curriculum to instill a proactive and solution-oriented mindset. Students are presented with real-world challenges, encouraging them to analyze, strategize, and implement effective solutions.

By incorporating experiential learning, participative methods, and problem-solving approaches, the institution ensures that education goes beyond rote memorization, promoting a holistic learning experience.

2.3.2 - Teachers use ICT-enabled tools including online resources for effective teaching and learning

The institution prioritizes modern and effective teaching methods by integrating Information and Communication Technology (ICT) tools, including online resources, E-course contents into the educational landscape. Teachers harness the power of technology to create dynamic and engaging learning experiences for students.

Through the incorporation of ICT tools, diversified instructional strategies were used by the faculty members by accommodating various learning styles. Online resources such as educational websites, interactive simulations, and multimedia presentations supplement traditional teaching materials, providing students with a richer and more interactive understanding of the curriculum.

The use of online platforms facilitates seamless communication between teachers and students. Assignments, resources, and feedbacks were easily shared, promoting a collaborative and accessible learning environment.

ICT tools also play a pivotal role in personalized learning. Faculty members provide tailor content to individual student needs, providing targeted support and challenges. This approach of the institution promotes self-directed learning and encourages students to take ownership of their educational journey.

The institution's commitment to leveraging technology underscores its dedication to providing a contemporary and forward-thinking education that prepares students for the challenges of the digital age.

2.3.4 - Preparation and adherence to Academic Calendar and Teaching Plans by the institution

The institution places a paramount focus on meticulous preparation and unwavering adherence to the academic calendar and teaching plans, recognizing the pivotal role they play in providing a structured and effective learning environment.

The academic calendar serves as a comprehensive roadmap, outlining key milestones, semester schedules, and important events. Its careful preparation involves strategic coordination among academic departments, ensuring a well-organized and cohesive academic year. Adherence to the calendar is rigorously maintained, guaranteeing that students and faculty are synchronized in their academic pursuits.

Teaching plans are thoughtfully crafted, aligning with the curriculum objectives and pedagogical best practices. They serve as a detailed guide for instructors, delineating the topics to be covered, assessment schedules, and learning outcomes. The institution's commitment to prepared teaching plans fosters a consistent and high-quality educational experience for students.

By adhering to these meticulously designed plans and calendars, the institution demonstrates its dedication to providing a stable and predictable learning environment. Students benefit from a structured academic journey, faculty members can optimize their teaching strategies, and the institution as a whole cultivates an atmosphere of academic excellence and efficiency. This commitment ensures that educational goals are met, fostering a conducive environment for both teaching and learning.

2.5.3 - IT integration and reforms in the examination procedures and processes including Continuous Internal Assessment (CIA) have brought in considerable improvement in the Examination Management System (EMS) of the Institution

The institution has undergone significant transformation through the seamless integration of Information Technology (IT) and comprehensive reforms in examination procedures, including Continuous Internal Assessment (CIA).

The integration of IT tools has streamlined various facets of examination management. Automated systems for result processing, and feedback mechanisms have reduced manual errors and administrative burdens. The use of online platforms for exam registrations and submissions has not only simplified processes but also increased accessibility for students.

Reforms in Continuous Internal Assessment have played a pivotal role in promoting a holistic evaluation approach. The incorporation of IT in CIA methods, such as online quizzes and virtual presentations, has diversified assessment strategies, providing a more comprehensive understanding of students' knowledge and skills.

Furthermore, the digitalization of examination records and results has expedited result declaration and improved transparency.

Students can access their grades promptly, and feedback mechanisms are efficiently managed through online platforms.

Overall, the institution's commitment to IT integration and examination reforms reflects a forward-thinking approach to education. This transformative shift has not only modernized the examination management system but has also contributed significantly to a more streamlined, accessible, and student-friendly academic environment.

2.6 - Student Performance and Learning Outcomes

2.6.1 - Programme Outcomes and Course Outcomes for all Programmes offered by the institution are stated and displayed on the website and communicated to teachers and students

The institution ensures that each course defines specific and measurable Course Outcomes, outlining the knowledge, skills, and attitudes students should acquire by the end of the course. COs are meticulously aligned with the broader learning objectives of the curriculum, ensuring a cohesive and progressive educational experience. COs encompass a diverse range, including theoretical understanding, practical application, critical thinking, and soft skills relevant to each course. COs are subject to regular review to align with industry trends, technological advancements, and changing educational needs, ensuring the courses remain current and relevant.

At the beginning of each semester, faculty members receive a detailed orientation on the course outcomes, emphasizing the importance of aligning teaching strategies with these outcomes. COs are integrated into the teaching plans, allowing instructors to design lessons, assignments, and assessments that directly contribute to the achievement of these outcomes.

Ongoing communication channels are established between teachers and students for continuous monitoring of progress. Regular feedback sessions provide insights into the effectiveness of teaching methods in achieving the COs.

Through this comprehensive communication mechanism, the institution ensures a shared understanding of course outcomes, fostering an environment where both teachers and students actively contribute to the achievement of these outcomes.

2.6.2 - Attainment of Programme Outcomes and Course Outcomes as evaluated by the institution

The institution employs a robust method for measuring the attainment of Program Outcomes (POs), Program Specific Outcomes (PSOs), and Course Outcomes (COs) to ensure a comprehensive evaluation of the educational effectiveness.

Programme Outcomes: POs are assessed through a combination of methods, including standardized exams, capstone projects, internships, and presentations. External benchmarks and accreditation criteria are used to validate the attainment of POs, ensuring alignment with industry and global standards. Post-graduation, alumni feedback and success stories contribute to the assessment, providing insights into the practical application of acquired skills.

Program Specific Outcomes (PSOs)

PSOs are directly aligned with specific courses within the program. Each course contributes to the attainment of one or more PSOs. Faculty assesses PSOs through course-specific assessments, projects, and examinations.

Collaboration with industry partners allows the institution to measure the practical application of PSOs in real-world scenarios. (MoU with ICAI, Techno serve)

Course Outcomes: COs are continuously assessed through quizzes, assignments, mid-term, and final exams during the course duration.

Clear rubrics and criteria also used to assess course outcomes

GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 - Institutional Vision and Leadership

6.1.1 - The governance of the institution is reflective of an effective leadership in tune with the vision and mission of the Institution

A. Vision and Mission Statement

Mission: "Excellence is not the final destination; it is an ongoing journey of evolution powered by intellectual energies and guided forward by the moral value orientation."

Vision:

1) Redesign and restructure objective skill oriented, market friendly courses which are the need of the coming years, in this age of globalisation.

2) In order to meet the challenges of the global market, fruitful co-operation and collaboration with the foreign universities in near future.

B. Governance:

All stakeholders participate actively in governing the institution. The Governing Body delegates authority to Principal who, in turn share it with the different levels of functionaries in the college. The Heads of Departments, the Chairpersons of various committees, forums and associations, with the staff representatives on higher decision-making bodies play an important role in determining the institutional policies and implementing the same.

C. Perspective Plan

The institution has a Perspective/Strategic Plan in place to help it develop in a systematic, well-thought-out and phased manner.

D. Participation of Teachers in Decision Making Process:

Teachers participate as departmental heads, Sub-Committee Members, Chairperson and members of various committees, forums and associations and in the Board of Studies, Academic council, Governing council, IQAC, CDC through their representatives.

6.5 - Internal Quality Assurance System

6.5.1 - Internal Quality Assurance Cell (IQAC) has contributed significantly for institutionalizing quality assurance strategies and processes visible in terms of incremental improvements made during the preceding year with regard to quality (in case of the First Cycle): Incremental improvements made during the preceding year with regard to quality and post-accreditation quality initiatives (Second and subsequent cycles)

Best class of the year

The month-wise project was selected and all the classes were asked to do the project by involving the entire class in activities like group dance, songs, skits, creation of advertisement, branding, marketing etc. The best class was adjudged on the basis of

performance in these activities and other criteria like discipline, attendance, involvement of the students etc. The best

class is announced and trophy awarded to that class.

To compete for the best class the number of students participating in extra and co-curricular activities increased significantly.

Best student of the year

A committee was formed consisting of senior teachers. It decides the criteria for the selection of the best student. The applications were invited from eligible third year students from all the streams in a prescribed form. The short listed students were called for a personal interview. Finally the best student was selected by considering the overall performance of the student in the various activities such as academics, sports, cultural, N.S.S. and other social activities along with performance in the personal interview. The number of students competing for best student award is increasing year on year.

6.5.2 - The institution reviews its teaching-learning process, structures and methodologies of operation and learning outcomes at periodic intervals through its IQAC as per norms

The institution through IQAC reviews its teaching learning process and methodologies of academic operations periodically through:

Feedback on the Teaching Learning & Evaluation Process

Feedback is collected from students through google form. The same is analysed and informed to the teachers with suggestions for improvement. Feedback from parents are taken during the PTMs and steps are initiated to accommodate their suggestions.

The IQAC designed teaching plan template covering description of units, Course outcome, Pedagogical approach, Evaluation techniques are prepared by the course mentors. At the end of the term review meetings are conducted to analyse the outcome of the curriculum for further improvements to cater to the local, national, regional

and global needs. Published results are analysed course wise and shared with all stake holders.

Academic Audit:

To encourage departments to evaluate their educational quality process IQAC initiated the Internal Academic Audit Process. IQAC collected the self-evaluative reports from the Department heads, Programme heads and reports of the internal peer teams led by senior faculty members after interacting with each department. The institutional level audit report was submitted to the Principal.
